6.1 Ranking Rules

Eligible participants will be ranked in descending order of their total qualifying notional trading volume, with first place awarded to the highest total. The next four eligible participants will be ranked second through fifth.

Ranking is based on the greatest qualifying total notional trading volume.

A participant's ranking is determined by qualifying notional trading volume.

6.2 Tie-break Rule

Where two or more eligible participants have the same total qualifying notional volume, they will be ranked as follows:

1. **Net deposits:** the participant with the higher net deposits during the Campaign Period ranks higher. Net deposits are total deposits received less withdrawals processed during the Campaign Period. Internal transfers between accounts or wallets are not counted.
2. **Time of final qualifying trade:** if net deposits are also equal, the participant whose final qualifying position was closed earliest during the Campaign Period ranks higher.
3. **Random selection:** if the participants are still tied, the ranking will be decided by an internal random draw conducted by Fintrix Markets. The draw will not be held publicly. It will be overseen by at least two Fintrix Markets staff members and a record of the result will be kept. The tied participants will be notified of the outcome, and Fintrix Markets' decision is final.

Example:

Ranking	Trader	Traded Notional Volume	Net Deposit
1	Participant A	100,000,000	US$1,000
2	Participant B	100,000,000	US$500

Participant A ranks above Participant B because Participant A has the higher net deposits during the Campaign Period.

Fintrix Markets will verify all trading and deposit records and make the final determination of rankings in accordance with these rules.

7. Notional Volume Calculation:

Notional volume is counted on both the opening and the closing of each qualifying position. The notional volume for each side is calculated as:

Contract Size x Lot Size x Market Price

A position counts towards notional volume only if it is opened and closed within the Campaign Period and held open for at least 5 minutes. Positions still open at the end of the Campaign Period do not count.

Example:
a EUR/USD position with a contract size of 100,000 and a lot size of 1.00, opened at 1.0850 and closed at 1.0870:

- Opening: 100,000 x 1.00 x 1.0850 = US$108,500
- Closing: 100,000 x 1.00 x 1.0870 = US$108,700
- Total notional volume: US$217,200

7.1 To receive the prize, winners must hold a fully verified and approved Fintrix Markets live trading account in accordance with the Client Agreement. Fintrix Markets reserves the right to withdraw eligibility from any winner who fails to meet this requirement.

7.2 Each client is entitled to receive only one prize in this Campaign. Total Notional Volume will be calculated after the campaign ends. Winners will be announced on Fintrix Markets' social media channels and official website within 15 days.

7.3 Prizes cannot be exchanged for cash at the winner's request, except where a cash prize is expressly offered. If Fintrix Markets cannot procure or deliver a selected non-cash prize, it may offer an alternative of equivalent value or credit a cash alternative equal to 95% of the prize's actual value to the winner's eligible Fintrix Markets trading account.

7.4 Any disputes or complaints arising from the Campaign will be handled in accordance with Fintrix Markets' applicable complaints procedures. Eligible clients are automatically enrolled as described in Section 4, subject to the Campaign exclusions and these Terms and Conditions.

8. Prize Delivery

Upon completion of the Campaign, Fintrix Markets will review eligible participants and contact the winners within 7 business days. Winners must provide their full name, residential address, email address and phone number for prize fulfilment. Each winner is responsible for ensuring that the information supplied is accurate and complete. Fintrix Markets is not responsible for delivery failures caused by incorrect or incomplete information supplied by a winner. Personal information collected for prize fulfilment will be handled in accordance with applicable privacy requirements. All prizes are subject to availability.

8.1 Winner confirmation

Following the end of the Campaign, each winner will be contacted by their Fintrix Markets Account Manager within 7 business days, using the contact details held on their account. Winners must respond and provide the information required for prize fulfilment within 7 days of being contacted.

If a winner does not respond within this time, or is found not to meet these Terms and Conditions, they will forfeit their prize and ranking. Every eligible participant ranked below them will move up one position, and prizes will be awarded according to the revised ranking. The next eligible participant will move into fifth place.

9. Disqualification

Fintrix Markets reserves the right to disqualify any participant who:

● Violates any of the Terms;

● Provides false information;

● Engages in suspicious or abusive trading practices, including churning or other activities prohibited under Clause 14 of the Fintrix Markets Client Agreement.

9.1 Hedged Trading Restriction

Participants are **not permitted to open simultaneous long and short positions on the same instrument** for the purpose of generating artificial trading volume (“hedged trades”). Any trading activity identified as hedging the same instrument, or any pattern deemed as volume manipulation, will be disqualified from the competition. Fintrix Markets reserves the right to void, exclude, or adjust any trading volume that is determined to be non-genuine, exploitative, or in violation of fair competition practices.

10. Modification and Termination

Fintrix Markets reserves the right, at its sole discretion, to amend, suspend or terminate the Campaign or these Terms and Conditions at any time without prior notice, subject to applicable law. The Company may remove or deduct promotional benefits, rewards or credits from a participant's account and invalidate profits derived from them where there is a breach of these Terms, suspicious or abusive trading activity, or misuse of promotional benefits.

Any updates or changes to the Campaign or its Terms will be communicated via email and announced on the Company’s official website or social media channels.
